

EMCOR is a Spanish Company which has been working for more than 30 years on the manufacture and supply of machinery and equipments for the underground roof support sector.

One of our more successful products is the EXPANBOL friction bolt, manufactured at our facilities located at the north of Spain. This is an extraordinary product that provides safety advantages, easier installation and better performance due to its quick fixing and anchoring.

EXPANBOL is being employed in underground works worldwide, mainly on large underground metallic mining and tunneling construction projects.

In addition we also offer other products:

- Self drilling bolts.
- Steel arches (TH & HEB).
- Bernold Sheet.
- Steel fiber.
- Micropiles.

We are interested on a commercial representative for our underground support products in **SOUTH AFRICA, INDIA, AUSTRALIA** and **TURKEY** with experience on this field.

Please contact us on: taherzanabili@emcorsa.com or (+34)985966212.

Person of contact: **Taher Zanabili**
