

PRESS RELEASE

Always a Step Ahead

CBE GROUP IS NOW THE NUMBER ONE SEGMENT MOULD SUPPLIER IN CHINA

60 % of the current subway construction sites in China are using CBE segment moulds. Amongst the 18 Chinese cities where CBE Group is present are Shanghai, Beijing, Shenzhen, Wuhan and Xi'an. Since the beginning of 2013, our manufacturing plant in Yangling fabricated and delivered more than 60 sets of moulds to Asian tunnel projects. These figures clearly state that CBE Group stays the unchallenged world market leader for tunnel segment moulds of any dimension.

Moulds with an exterior diameter of 6000 mm for Guangzhou Subway / Photometric control of moulds by GOM

Our Chinese factory in the province of Shaan Xi had been inaugurated in 2009. Mould design is - of course - made in France.

About CBE Group

CBE Group is the world leader in design & manufacture of segment moulds, their handling equipment & their automated precast facilities for tunnel lining. These quality products made in France are based on the long time experience in connection with a strong focus on innovation. Founded in 1987, CBE Group started its success story with the supply of moulds and precast carousel for the Channel Tunnel. Until today, CBE Group has realized 13 000 segment moulds and 350 precast facilities worldwide.
