

## **4<sup>th</sup> Annual Tunnels Fire Safety Forum**

Location: Amsterdam, the Netherlands  
Date: May 11 – 13, 2016  
Website: <https://fleming.events/en/events/hse/tunnels-fire-safety-forum>  
Contact: Ada Tobias [ada.tobias@fleming.events](mailto:ada.tobias@fleming.events)

The **4<sup>th</sup> Annual Tunnels Fire Safety Forum** brings together fire brigades, construction companies, operators, and the public sector in order to create a collaborative platform for discussion and sharing best practices. The 2016 edition of this event provides the delegates with practical knowledge, first-hand experiences, as well as an overview of the technical requirements.

### **Key topics:**

- Overview of the latest interoperability specifications
- Findings the latest PIARC report on road tunnel safety
- Technical trade-offs of designing tunnel fire safety
- Electric vehicles in tunnels – hazards, challenges, and solutions
- Lessons learned from 4 major tunnel fires in Norway
- Details of fire-prevention systems of the Crossrail project in the UK and the EJMT tunnel system in the USA.

### **Advantages of attending:**

- Exclusive event workshop - “Best Practices In Tunnel Emergency Planning And Response”
- Site visit to a Province of North Holland tunnel control room & two tunnel objects
- Practical knowledge delivered during 8 case studies
- Multilateral collaboration of all associated parties
- Presentations from leading construction companies in the UK, Europe, and the USA

### **Hear from:**

- **Tony Cash** - International President of **RIFA, UK** (Conference Chairman)
- **Han Admiraal** - Chairman of **ITACUS, Netherlands** (Conference Chairman)
- **Shan Raffel** - Fire Officer & Churchill Fellow at **Queensland Fire and Emergency Services, Australia** (Event Workshop leader)
- **Alan Curran** - Fire Engineer at **Crossrail, UK** (Largest European infrastructure project)
- **Pierre Schmitz** - Ex-VP & Honorary PIARC Member at **PIARC Technical Committee on Road Tunnels Operation, France**

...[and many more.](#)
